

Our Vision

To provide students, parents, staff, and educational organizations with technological tools to help them learn, teach, and collaborate more efficiently every day!

Our Mission

Today, life is busier than ever. Students do a lot of homework, parents fill out endless forms, teachers grade papers, staff members mark attendance, etc etc... **We believe that technology should alleviate administrative burden and allow everyone to focus on what's really important: Learning!**

Technology is a tool that, when utilized to its full potential, brings unprecedented aide to the learning process. Please let Virtual Pastimes, Inc. help you and your organization to make the most of your technology!

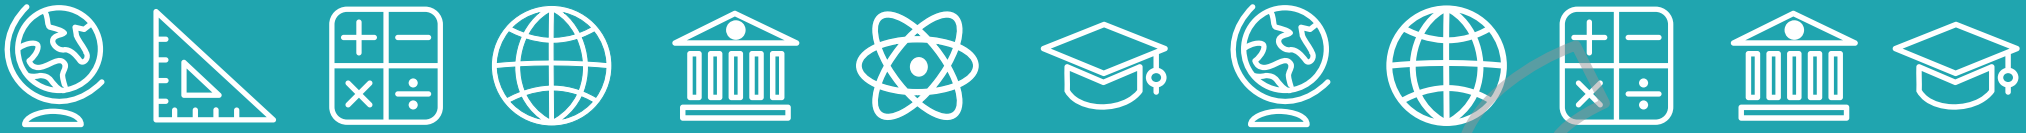

K-12 Technology/SIS Consulting Services

Virtual Pastimes, Inc. Technology/SIS Consulting for K-12 Schools and private organizations

About Us

Virtual Pastimes, Inc. is small, private consulting firm that prides itself on its ability to provide technical assistance to K-12 Schools, and the global Educational Technology sector. With many years of direct experience with K-12 Technology, a relationships with 150+ school districts in the U.S., Canada, UK, and China, we are a leading force in K-12 consulting.

Our Domain

Virtual Pastimes, Inc. has direct experience with a wide variety of K-12 Student Information System (SIS) modules, including **Course Scheduling, Attendance, Gradebook, Conduct, Registration, Staff FTE Reports, Data Analytics, Teacher Evaluations, Federal/State/Local Data Reporting, Parent/Student Portal Access, and general SIS configuration and implementation.**

Our Services

Virtual Pastimes, Inc. provides a variety of technology services to K-12 school districts, educational entities, and private companies.

Some of our recent projects include:

- Integration of SIS with state-run Health Management Systems
- Migration of legacy data into new SIS
- Design of new modules for online-based SIS
- Design/implementation of custom reports
- Automated student account creation
- Security analysis of external third-party vendors
- Performance optimization of reports
- Implementation of real-time data updates
- Configuration of training servers/systems
- Data transfer configuration between servers
- SIS Integration of ID Scanner and Attendance Receipt Printer
- In-house Student Registration solution
- In-house Teacher/Staff Evaluation solution

We Help Companies Too!

We've worked directly with a variety of public, private, and charter K-12 Districts.

Additionally, **our company has been employed by a number of private organizations** to assist with:

- **Market research** on SIS vendors and services
- **UI/UX Analysis and Design** of key SIS modules
- **Software Development** assistance with new SIS Implementations (**Java, JavaScript, jQuery, HTML/CSS, SQL, Python, etc...**)
- **Webinars on state and federal reporting** requirements (**CRDC, SIF, etc...**)
- **Strategy for new client acquisition** based on current trends and overall market needs
- **Data Analytics** presentations/explanations

We bring 15+ Years of Development and Consulting Experience and are happy to assist your organization with all of your K-12 technical needs, **either directly or as a sub-contractor. Please contact us today!**
